

INVITATION TO THE PRESS

We have pleasure in inviting you to attend the SET Plan conference 2015 - “Research, innovation and competitiveness for the Energy Union” - in Luxembourg on 21 and 22 September.

The SET Plan conference is an annual forum that strengthens the work of the European Strategic Energy Technology ([SET-Plan](#)). It aims to deepen the debate on how to accelerate the transformation of the energy system through research and initiatives to make it more competitive and is a key event taking place under the Luxembourg Presidency of the European Union.

Expert delegates from the energy sector through Europe and beyond will be attending the conference. We will be honoured by the participation of **Xavier Bettel**, Luxembourg Prime Minister, **Étienne Schneider**, Luxembourg Deputy Prime Minister and Minister for Economic Affairs, **Carlos Moedas**, European Commissioner for Research, Innovation and Science as well as **Miguel Arias Cañete**, European Commissioner for Climate Action and Energy.

The SET Plan conference is organised by My Energy G.I.E., a Luxembourg structure for information and advice in the areas of energy efficiency and renewable energy sources, with the support of the European Commission.

Various conference sessions will address the ways in which research and innovation can enable consumers to play a role in energy transition and how they can contribute to achieving EU targets on energy efficiency and renewable energy. The conference will focus more specifically on the opportunities and challenges of the financing system for the transformation of the energy sector.

We are proud to be hosting this prestigious event and look forward to you joining us and covering the event for your media organisation. Entry is of course free of charge for your representative and, should you accept this invitation, we would be happy to include your details on our website media page with a link to your news website.

More information about the SET Plan conference 2015 and the detailed programme are available at www.setplan2015.lu Twitter: @SetPlan_eu Hashtag: #SetPlan15

About My Energy G.I.E.:

My Energy G.I.E. was established as an economic interest group and is defined as the Luxembourg structure for information and advice for consumers, cities, companies and experts in the areas of energy efficiency and renewable energy sources. It aims to encourage the public to expend energy more rationally, increase the use of sustainable and renewable energies and promote sustainable housing and living. These tasks support the Luxembourg government in helping to implement a sustainable energy policy in order to improve the security of energy supply and environmental protection through reducing the consumption of fossil fuels.

myenergy is supported by the Luxembourg Ministry of Economy, the Ministry of Sustainable Development and Infrastructure and the Ministry of Housing.
